General Manager Report

Phase 2C Pipeline/Easements

Mr. Tolen reported that he continues to work with La Plata County staff, this time the County Attorney, to have County Staff determine and confirm that La Plata County owns subsurface rights on County Road 509, per the Minutes from a 1906 La Plata County Commissioner meeting as well as Right of Way documentation from 1908 and 1909. To reiterate, Counsel Greher and Joseph W. Norris, have provided a letter validating the legality of La Plata County's subsurface rights on County Road 509 based on legal documents of record. Homestead Patents recorded in 1906 for the Baird family and 1914 for the Semler family do not interfere with the subsurface rights for County Road 509 by La Plata County. Mr. Tolen will continue to pursue these efforts until a decision is confirmed.

SB23-303

The legislation has referred Proposition HH to be included on the statewide ballot in November. It is currently being challenged in court by an organization arguing that it is not a single subject proposition.

The District may need to develop two budgets, one if the ballot issue passes and one if it fails. Mr. Tolen will keep the Board advised of activity related to Proposition HH.

Storage Facility at County Road 311

Mr. Tolen advised the Board that he has not received a response from the architect recommended by Dave Henry, though he did initiate a conversation with them. He has received a response from SGM who submitted a proposal for development of a site plan on the District property on County Road 311. SGM is revising their scope of work and cost estimate for submission to Mr. Tolen.
